Subject: THE LIFE OF ISMAIL MOHAMMADI A KURDISH POLITICAL PRISONER IS IN DANGER

In July of this year, in accordance to the official order by office #32 of the supreme court of Iran, Mr. Ismail Mohammadi (file # 32/102) a political Kurdish prisoner has been sentenced to death.

Mr. Ismail Mohammadi has been imprisoned for more than two years by the Islamic government of Iran. He has been interrogated many times and has been mentally and physically tortured many times. A court in the city of Orumie in Iran sentenced Mr. Mohammadi to death last year. Mr. Mohammadi appealed his sentence and this time he was sentenced to death again by the Supreme Court of Iran for supporting and

co-operating with [Komala](#), which is one of the major political parties in Kurdistan.

Ismail Mohammad is 38 years old, married and he is the father of 5 children whom all are victims of inhuman actions of a government that has been condemned by the United Nations Human Rights Tribunal on a number of occasions due to their tortures and executions of prisoners. The government of Iran is trying to create fear and terror in people of Kurdistan by executing Mr. Mohammadi. By creating fear, the government is making an attempt to suppress the people of Kurdistan and to prevent any freedom fighting movements.

We must promptly prevent the execution of Mr. Mohammadi and prevent the government of Iran from further suppressing the people of Kurdistan and shutting their freedom fighting voices by fear. We hereby, would like to ask all humanitarian organizations and all advocates of human rights and freedom to prevent the execution of Mr. Ismail Mohammadi.

Respectfully Yours

Hamid Bahrami,
Komala's representative in North America
